

Inkjet Fabric Systems

Fabric List • Fall 2017

Backing- Price shown is for paper backed fabric. All our treated fabrics are also available unbacked. Please call for unbacked pricing.

Samples - *Are normally 42" wide, although some silks are a little narrower.*

Swatches- A complete set of swatches is available for \$14.00. Item # IS00000.

Fabric Treatments T treated fabrics are for use with waterbased inks. For solvent printing see our fabrics for solvent printing on page 12 of this list, or our website.

ProCoat - for commercial quality printing. Fully washable and dry cleanable. Coating is designed to maximize fixation and color yield on fabric. Colors require post fixation: steam setting for reactive and acid dyes; steam or heat setting for disperse dyes.

FabriSign - as easy as it gets. Requires no steaming and works with any water-based inkjet ink. Good water resistance but not guaranteed washable or dry cleanable. Wash fast when used with pigmented textile inks and dry heat-set.
